SNIPS

If You Can't Measure It, You Can't Manage It

The [World Business Council for Sustainable Development](#) has developed a framework for businesses to understand how they impact the societies they operate in. The [Measuring Impact Framework](#) was developed to help companies measure and assess the impact of their business activities on economic and broader development goals wherever they operate. The Excel-based tool provides an easy way for businesses to assess their impacts and create pathways for action.

Did You Know About DCA's Compliance Assistance Resources?

The [Division of Compliance Assistance](#) (DCA) has [Compliance Assistance Resources Web pages](#) that provide regulated entities with information on compliance with air, water and waste regulations. If you missed a previous issue of SNIPS, the DCA e-newsletter, don't worry. DCA has a [SNIPS-archived Web page](#) available.

New Resource for Fugitive Dust

Did you know that the fugitive dust regulation, [401 KAR 63:010](#), is one of the most frequent regulations cited as a violation? Because of this, the [Division of Compliance Assistance](#) has created a [Fugitive Dust Informational Brochure and Newsletter](#) to help with awareness and compliance with the fugitive dust regulation.

University of Kentucky Launches First Environmental Compliance Assistance Needs Assessment Survey

DCA Programs

Environmental laws can often be confusing and challenging. The [Environmental Compliance Assistance Program](#) helps regulated entities understand and comply with environmental obligations, advocates for entities underrepresented in the regulatory process and facilitates moving "beyond" compliance to environmental leadership.

Are you doing great things for the environment? Do you participate in voluntary environmental events? Does your workplace go above and beyond regulatory requirements? If you answered yes, then [KY EXCEL](#) is a program for you. [KY EXCEL](#) is a voluntary environmental leadership program where you can meet and interact with Kentucky's environmental leaders.

The [Operator Certification Program](#) trains and certifies wastewater and drinking water system operators to ensure that these environmental professionals are qualified and prepared to properly treat and protect Kentucky's water resources.

The [University of Kentucky](#), in partnership with the [Division of Compliance Assistance](#), is conducting an [online survey](#) to assess the environmental compliance assistance needs of Kentucky's regulated entities. The survey is designed to measure what environmental compliance assistance needs exist and how to most effectively meet those needs. If you are a regulated entity in Kentucky, please consider participating in the [survey](#). For questions regarding the survey, please contact [Kenya Stump](#) at 502-564-0323.

*The Kentucky Brownfield Program
Recycling the Commonwealth*

The [Brownfields Program](#) helps communities and property owners identify meaningful solutions that encourage the cleanup and redevelopment of underused, contaminated properties.

Kentucky Division of Compliance Assistance
300 Fair Oaks Lane, Frankfort, KY 40601
Phone: 800-926-8111
E-mail: envhelp@ky.gov

This message has been sent to past DCA clients and to individuals that have notified the division that they would like to receive information related to environmental compliance or environmental leadership. If you would like to be removed from this distribution list, please reply to this e-mail and we will promptly honor your request.

Compiled by Kenya Stump. For submittals, please send information to envhelp@ky.gov with the subject line of "SNIPS Submittal Information".
